

**Job Sheet 10-1**

Name \_\_\_\_\_ Date \_\_\_\_\_

**Routine Maintenance: Heating System**

Upon completion of this job sheet, you should be able to inspect and test the operation of the heating system.

**Tools and Materials**

- Safety glasses
- Service manual
- Vehicle

**Describe the vehicle being worked on:**

Year \_\_\_\_\_ Make \_\_\_\_\_ Model \_\_\_\_\_

**PROCEDURE**

For each step, the student will check off a "task completed" box.

	Completed
Check heater function: turn on engine and let it warm up.	_____
Set heater controls for maximum heat and turn on blowers.	_____
Check for sufficient heat.	_____
Test operation of front windshield defroster for sufficient heat.	_____
Check hoses for leaks. Check the length of each hose and the ends for leaking.	_____
If no leaks are found, feel each hose. If the hose feels spongy or hard, it should be replaced.	_____
Look for bubbles or cracks. If found, replace the hose.	_____
